EDUCATION

V.S.M College of Engineering

Bachelor of Technology in Computer Science(Computer Science and Engineering)
CGPA – 8.05

Ramachandrapuram, Andhra Pradesh

2023 – 2027

EXPERIENCE

Frontend Development Intern

Ocean Apps Technologies

May 2025 – July 2025

Completed Frontend Development Internship at Ocean Apps Technologies, where I worked on developing responsive and user-friendly web applications using HTML, CSS, JavaScript, and React.js. Gained hands-on experience in UI development, debugging, teamwork, and real-time project workflow.

PROJECTS

Advanced Image Caption Generation using Vision

December 2025 – January 2026

Developed an Advanced Image Caption Generation System using Vision-Language Models, Python, TensorFlow, and Deep Learning techniques. The project generates meaningful captions for images by combining computer vision and natural language processing concepts. Implemented image feature extraction, caption generation, and model training to improve automatic image understanding and descriptive text generation.

AttendIQ – Smart Attendance Management System

February 2026 – April 2026

Developed an AI-based Attendance Management System using Python, OpenCV, and face recognition technology to automate student attendance tracking. The system captures and trains facial images for accurate recognition and automatically marks attendance through a webcam. Implemented features for student registration, image processing, model training, automatic attendance recording, and CSV-based attendance management with a simple user-friendly interface.

Event Promotion Website

June 2025 – July 2025

Developed an Event Promotion Website during internship/training at Ocean Apps Technologies using HTML, CSS, JavaScript, React.js, and frontend development concepts. The website was designed with a responsive and user-friendly interface to promote events, display event details, and improve user engagement. Worked on UI design, webpage responsiveness, and interactive features while gaining hands-on experience in real-time web development and teamwork.

TECHNICAL SKILLS

Programming Languages: Java, Python, C/C++, SQL

Web technologies: HTML, CSS, JavaScript, TypeScript

Developer Tools: Git, Visual Studio, IntelliJ, Eclipse

Libraries: pandas, NumPy, Matplotlib

ACHIEVEMENTS AND CERTIFICATIONS

- **Artificial Intelligence (AI) for Management** – NPTEL, IIT Madras (Elite Certification)
- **The Joy of Computing using Python** – NPTEL, IIT Madras (Elite Certification)
